

Air Emissions Permitting

The professionals at **Alliance Environmental Group**, an F.W. Webb Co., are highly experienced in Federal and State air emissions guidelines and are ready to lead you through the process. We work with clients in power generation and distribution, chemical manufacturing and handling, surface coating, metal finishing, beverage manufacturing (alcoholic and non-alcoholic), waste processing management, and similar industries. When you need a construction permit and/or operating permit for your small or large facility, no worries, count on Alliance to handle it successfully.

On your behalf, we can effectively and efficiently address air emission compliance needs, such as:

- Toxic/Hazardous Air Pollutants (Federal)
- Criteria Pollutants (Federal)
- New emission sources and existing ones

Air Emissions Services:

- Major Source Permitting, including BACT/RACT/LAER determinations
- Air Dispersion Modeling of single and multiple sources, including interacting sources
- Minor Source Permitting, including NSPS evaluations
- Air Toxic Source Permitting, including Federal NESHAP evaluations
- Coordination of stack testing subcontractors for compliance determinations and RATA
- New facility planning
- Compliance audits
- Draft permits for both private and public sectors
- Expert witness services for new permit applications and air impact assessment
- And much more...

Alliance Environmental Group provides a wide range of environmental testing, remediation and engineering consulting services. Engineering and scientific experts from Alliance work closely with federal, municipal, institutional, industrial and commercial customers. Our comprehensive list of professional services covers all your environmental and engineering needs. This includes assessments, facility management, regulatory compliance, permitting, auditing and more. Helping clients since 2001, Alliance Environmental Group joined the F.W. Webb Company in 2016. Alliance is committed to addressing your needs efficiently and cost-effectively.
