

# Design-Build Solutions for Bulk Propane Facilities

**Alliance Environmental Group**, an F.W. Webb Co., provides design-build solutions for oil and gas facilities and the infrastructure that links them. We deliver advanced, integrated services that address all phases of the project life cycle, from idea to in-service. Our industry experience supports our clients in designing, building, operating, and maintaining their assets when speed to market matters. Alliance manages all aspects of your project requirements from project planning, engineering, permitting, compliance, and construction to commissioning/start-up and system maintenance.

We understand the unique complexities and challenges of today's oil and gas market including, shifting regulatory policies, demanding licensing and permit requirements, and increased public involvement all within a competitive business environment. We embrace our customers' goals as our own and apply creativity, experience, integrity, and dedication to your projects.

## Trust Us for Your Propane Needs

Staffed by registered professional engineers, Alliance has a proven track record of success. They provide the following services for New England, Maryland, and Pennsylvania.

- Design-build
- Regulatory Permits, Fire Safety Analysis
- System Construction
- Construction Quality Management
- Commissioning and Start-Up

**Alliance Environmental Group** provides a wide range of engineering, permitting, and design-build construction management services. Developing and implementing strategies to effectively organize, evaluate, lead and execute significant capital improvement programs is a complex undertaking requiring experienced leadership and ability. Our team of planning and advisory experts work as an extension of your staff to help align your facility assets with your organization's mission and goals. Helping clients since 2001, Alliance Environmental Group joined the F.W. Webb Company in 2016. Alliance is committed to addressing your needs efficiently and cost-effectively.
