

# Chemical Industries

The chemical sector touches and drives nearly every facet of the U.S. economy – creating jobs, protecting people, and improving quality of life. Plastics, paints, packaging, petro-chemical, semi-conductor, pharm- and nutraceutical, aerospace, and automotive are a mere few of the industries where chemicals are integral to the inventive and production process.

Keeping a high-quality chemical process going (in many cases 24-7) requires meticulous attention to processes, efficiencies, safety, sustainability, regulations, and compliance.

The professionals at **Alliance Environmental Group (AEG)**, an F.W. Webb Company, can help you maintain your chemical production facility at optimum output with minimal downtime.

AEG scientists and engineers are well-versed in all your environmental issues and concerns. We work with you to develop the best solutions for both urgent and long-range needs. Adding value and meeting your timelines are our guiding principles.

## Chemical Industry Services:

- Air emissions testing and compliance permitting
- AST/UST permitting and compliance
- Chemical safety and compatibility
- Construction testing
- Corrosion services, pipeline inspections and forensics
- EHS compliance and training
- Emergency spill response coordination
- Energy audits recommendations
- Environmental assessment and remediation of soil and groundwater
- Facility compliance auditing and regulatory reporting
- Hazardous materials management
- Indoor air testing and quality improvement
- Plant decommissioning
- Land-use planning and permitting for facility expansions
- Leak detection and repair
- Metallurgical and Materials: Failure and root cause analysis
- Nondestructive examination
- On-site safety training
- Permitting and planning
- Professional engineering services
- Sustainability programs
- Waste minimization, recycling, reuse and monitoring
- Wastewater system optimization
- Water management resources

**Alliance Environmental Group** provides a wide range of environmental testing, remediation and engineering consulting services. Engineering and scientific experts from Alliance work closely with federal, municipal, institutional, industrial and commercial customers. Our comprehensive list of professional services covers all your environmental and engineering needs. This includes assessments, facility management, regulatory compliance, permitting, auditing and more. Helping clients since 2001, Alliance Environmental Group joined the F.W. Webb Company in 2016. Alliance is committed to addressing your needs efficiently and cost-effectively.
