

Licensed Environmental Professional Services

Alliance Environmental Group, an F.W. Webb company, has Licensed Environmental Professionals (LEPs) for the State of Connecticut to lead you through Remediation Standard Regulations (RSRs).

The LEP Program was established by the Connecticut General Statutes (CGS) on October 1, 1995. Subsequently, the state's LEP regulations were adopted on June 2, 1997. LEPs work closely with state official to oversee cleanup of contaminated sites in the context of the following programs:

- Brownfields and Urban Sites
- Federal Superfund Program
- Potable Water Program
- Property Transfer Program
- RCRA Closure and Corrective Action
- Significant Environmental Hazard Program
- State Superfund Program
- Underground Storage Tank Clean-up Program
- Voluntary Remediation Program

LEP Services:

- Pre-purchase, pre-sale assessments
- Preliminary response actions
- Technical Transfer Act applicability determinations
- Environmental Condition Assessment forms
- Transfer Act forms I to IV
- Phase I/II/III assessments
- Public notice of remediation
- Risk characterizations
- Preparing environmental land use restrictions
- Groundwater compliance monitoring
- LEP verification and verification audit defense

LEPs are held to a high standard of integrity and dignity in the Nutmeg State. An LEP can verify that an investigation has been performed at a specific property in accordance with prevailing standards and guidelines. An LEP can also verify that pollution on the property has been remediated in accordance with RSRs.

To effectively address the RSR process on behalf of clients in Connecticut, Alliance Environmental Group's LEPs develop comprehensive, innovative and cost-effective compliance solutions, actions and remediation.

Alliance Environmental Group provides a wide range of environmental testing, remediation, and consultative services. Engineering and scientific experts from Alliance work closely with federal, municipal, institutional, industrial, and commercial customers. Our comprehensive list of professional services covers all your environmental needs, including site assessments; hazardous materials management; regulatory compliance, permitting, and auditing; and much more. Helping clients since 2001, Alliance Environmental Group joined the F.W. Webb Company in 2016. We are committed to addressing your needs cost-effectively and efficiently.
