

# Licensed Site Remediation Professional Services

**Alliance Environmental Group**, an F.W. Webb Company, has Licensed Site Remediation Professionals (LSRPs) for the State of New Jersey. An LSRP is an experienced environmental professional licensed by the State of New Jersey and hired by Responsible Parties (RPs) to direct and oversee environmental investigations and remedial actions in accordance with applicable rules and regulations.

Typical LSRP services include:

- Preliminary assessments, site investigations, and remedial investigations
- Response Action Outcomes (RAOs) for multiple areas of concern and entire sites
- Sensitive receptor evaluations
- Public notification and representation
- Remedial action permits
- Institutional controls
- Underground storage tank removals

## LSRP Services:

- Site remediation cases, including Industrial Site Remediation Act (ISRA) and Underground Storage Tank (UST) sites
- Combined RCRA involvement and NJDEP oversight
- Litigation support
- Due diligence
- Soil excavation and disposal
- Institutional (e.g., CEA with monitored natural attenuation) with and without engineering controls, such as engineered caps and deed notices
- Remedial systems, such as soil vapor extraction; air sparging; multi-phase extraction; sub-slab depressurization
- In-Situ application, such as bioenhanced injections and chemical oxidation

In May 2009, the State of New Jersey signed the Site Remediation Reform Act (SRRA) into law. This important act caused major changes to the New Jersey Department of Environmental Protection's (NJDEP) Site Remediation Program. Perhaps the most significant change was the establishment of an LSRP Program that transferred the primary remediation oversight responsibility from the NJDEP to private sector LSRPs, with the NJDEP providing limited oversight and auditing services.

**Alliance Environmental Group** provides a wide range of environmental testing, remediation, and consultative services. Engineering and scientific experts from Alliance work closely with federal, municipal, institutional, industrial, and commercial customers. Our comprehensive list of professional services covers all your environmental needs, including site assessments; hazardous materials management; regulatory compliance, permitting, and auditing; and much more. Helping clients since 2001, Alliance Environmental Group joined the F.W. Webb Company in 2016. We are committed to addressing your needs cost-effectively and efficiently.
