

# Manufacturing and Electroplating

Manufacturing has long had a vital role in the health of the nation. On a small or large scale and across all types of industries, manufacturing is indisputably a key generator of economic strength, national pride, and individual prosperity. Keeping a high-quality manufacturing process going (in many cases 24-7) requires meticulous attention to processes, efficiencies, safety, sustainability, regulations and compliance.

The professionals at **Alliance Environmental Group (AEG)**, an F.W. Webb Company, can help you maintain your manufacturing or electroplating business at optimum output with minimal downtime. AEG scientists and engineers are well-versed in all your environmental issues and concerns. We work with you to develop the best solutions for both urgent and long-range needs. Adding value and meeting your timelines are our guiding principles.

## Industry Environmental Services:

- Air emissions testing and compliance
- AST/UST permitting and compliance
- Chemical safety, compatibility and hazardous materials management (asbestos, lead-based paint, etc.)
- Corrosion services, pipeline forensics, and failure analysis
- EHS compliance services and training
- Emergency spill response coordination
- Energy efficiency engineering
- Environmental assessment of soil and groundwater
- Facility compliance auditing and regulatory reporting
- Indoor air testing and quality improvement
- Land-use planning for facility expansions
- Leak detection and repair
- Metallurgical and materials, e.g., failure and root-cause analysis
- Nondestructive examination
- Permitting and planning
- Professional engineering services
- Sustainability programs and energy audits
- Waste manifesting, transportation and disposal
- Waste minimization, recycling, reuse and monitoring
- Wastewater system optimization
- Water management and pipeline inspections

**Alliance Environmental Group** provides a wide range of environmental testing, remediation, and consultative services. Engineering and scientific experts from Alliance work closely with federal, municipal, institutional, industrial, and commercial customers. Our comprehensive list of professional services covers all your environmental needs, including site assessments; hazardous materials management; regulatory compliance, permitting, and auditing; and much more. Helping clients since 2001, Alliance Environmental Group joined the F.W. Webb Company in 2016. We are committed to addressing your needs cost-effectively and efficiently.
