

Water and Wastewater Treatment

Ensuring the wastewater from your facility or municipality meets or better permit and regulatory limits is your everyday concern.

Alliance Environmental Group (AEG), an F.W. Webb company, helps you meet the demanding challenges of managing industrial and municipal wastewater. We provide a full range of environmental services for clients across the Northeast and beyond.

Staffed by highly experienced scientists and engineers, and backed by a company with more than 150 years in the plumbing, industrial and wastewater business, AEG specializes in the following water and wastewater areas:

- Improving wastewater treatment operations
- Eliminating sources of water contamination
- Mitigating impact of contamination on overall treatment process

For wastes generated during production or manufacturing processes, AEG can recommend less hazardous chemicals and more effective technologies for the treatment process, and develop innovative solutions for the end-of-line treatment stage.

Let us know how we can help you with your daily water and wastewater challenges.

Water and Wastewater Services:

- Treatment system design
- Upgrading wastewater infrastructure
- NPDES discharge permits
- Discharge monitoring reports (DMRs)
- Comprehensive management services, long-range planning, and management of capital improvement programs
- Design and installation of industrial treatment systems
- Routine compliance sampling
- Wastewater permitting support
