

# Alliance Environmental Group Signs Agreement with NRC

Alliance Environmental Group has entered into a strategic partnership with NRC (National Response Corporation), a global leader in environmental, industrial and emergency response solutions. With the acquisition of Alliance Environmental Group last fall, F.W. Webb Co. began offering a broad range of environmental testing, remediation and consulting services to commercial, institutional and industrial customers.

'The NRC strategic alliance broadens the scope of the F.W. Webb Company's Alliance Environmental Group to provide turnkey environmental solutions,' said Felix Perriello, president of Alliance Environmental Group. "With the expertise and global reach of NRC, Alliance Environmental Group now has the capacity to respond quickly and effectively to customers' environmental emergencies and hazardous spills anywhere in the U.S."

Alliance Environmental Group is staffed by highly experienced environmental scientists, engineers and technicians. The team brings vitally important environmental services to sensitive industries and customers, such as:

- Construction
- Commercial property owners and brokers
- Power/Energy production and distribution
- Pulp/paper processing
- Municipalities
- Food/beverage production
- Labs and Medical facilities
- Manufacturing and Electroplating
- Chemical production, use and handling
- Pharmaceutical and Life Sciences

"As a strategic partner of F.W. Webb and Alliance Environmental Group, NRC is at the ready 24/7 to respond to their customers' environmental needs on a top-priority basis," said Max Forsythe, Business Development Manager at NRC. "Immediate and effective spill response and emergency services, particularly the ability to assemble a highly trained response team rapidly in any location, are what F.W. Webb customers can count on."

In addition to addressing unexpected environmental emergencies, Alliance Environmental Group handles planned needs pertaining to land use, construction, expansion, maintenance, operations, compliance reporting, regular audits, etc. Among a wide-range of services offered are the following:

- Air-quality testing, remediation and compliance
- Environmental due diligence
- Hazardous materials management, including disposal
- Leaks and spills
- Permitting, planning and compliance
- Professional engineering services
- Storm water and waste water management
- Sustainability and optimization programs

## **About NRC**

NRC is a portfolio company of J.F. Lehman & Company, a leading middle-market private equity firm focused on the defense, aerospace and maritime sectors. NRC is a global provider of diversified environmental, industrial and emergency response solutions. With over 1,200 highly trained and skilled employees, NRC is exceptionally equipped to protect people, the environment, and to comply with environmental regulations on behalf of our customers.
